New College Proudly Presents

Come and join us for a free three-hour introductory session in which we will explore the key concepts of CLOUD COMPUTING and demonstrate some of its most amazing features.

Cloud services are becoming increasingly popular: 60% of information technology spending in 2016 was Cloud-based, and the size of the public Cloud service market will reach $236B by 2020. As one of the most evolved forms of infrastructure, cloud computing comes with many unique features. This introductory session is intended for ITEC, HRM and ADMS students and will demonstrate key features of cloud computing.

The following topics will be covered in this introductory session:

- Introduction to Cloud Computing and a complete review of its key features
- Introduction to Amazon Cloud Services (AWS), the most well-known cloud platform
- Introduction to Virtualization
- Virtualization and Cloud
- Implementing a Linux and Windows Server on AWS and all associated configurations with step-by-step review of details
- Deploying and Implementing a Web server on a Microsoft server and hosting a website

FRIDAY NOVEMBER 10, 2017

3pm – 6pm
